**Subject:** Pangreen and Highland Mist

The Division of Oil, Gas and Mining has received two Notices of Intention to Conduct Exploration. These are both in the same area near the Iron/Garfield county line along SR 20.

The first is called Pangreen, and the site is in the NW $\frac{1}{4}$  NW $\frac{1}{4}$  SE $\frac{1}{4}$  and the NE $\frac{1}{4}$  NE $\frac{1}{4}$  SW $\frac{1}{4}$  of Section 1, T. 33 S., R. 6 W. SLBM. The attached jpg file called PGSHPOmap shows the area. Both the surface and mineral rights are held by the BLM. The total disturbance would be about one acre.

The second is Highland Mist and has two sites in close proximity. One is in Sec 36, T. 32 S., R. 5 $\frac{1}{2}$  W, and the other is in Sect. 36, T. 32 S., R. 6 W. The surface ownership in this area is fee and SITLA, and the minerals are fee. The attached file HMSHPOmap.jpg shows the area. Total disturbance would be 4.0 acres.

Please let me know if you need additional details. I realize the maps don't show a lot of the surrounding areas, but, combined with the legal descriptions, I'm hopeful you have what information you need. They are on the Panguitch NW Quad map.

As per our MOA, please provide comments whether additional cultural resource information is needed for these sites, if known cultural resources are present in the area, or if they can be cleared.
